

South Island – Shawnigan Lake South

As with all other groups in North America, there have been no railway shows in 2020.

Our annual Victoria show is booked tentatively for Sept. 2021. In the meantime, I have been talking and showing up at the different scale groups in my area.

Most of the modular groups over the last 7 months have been refreshing and redoing track and electrical work as we did with our N scale OneTrak club.

Also, I have been asking members with home layouts to do a one or two running sessions with the visitors being masked and bringing their own throttles.

We have been extremely fortunate that Victoria has very low Covid 19 numbers.

That's about it.

Cheers
