

## Webmaster's Report - November 2020

There is not much new on the 7<sup>th</sup> Division's web site since last year.

The average number of visits for the last 10 months is 1,261 per month.

We have used 6.7 GB of the 10GB allowable space on our web server. This number includes space for RMMBC and VTEX and we will be fine for capacity for at least a few more years.

We have a "Members Layouts" page where 7<sup>th</sup> division members can post photos and information about their model railways. These pages are potentially of great interest to our readers and I'd like to encourage you to send me an email if you are willing to add your layout to the website. The "Members Layouts" can be seen at <http://7divpnr.ca/node/58>

Our documents page is here: <http://www.7divpnr.ca/documents>
